

Water filter Haier part numbers

0060218743, 0060822300, 0060811799C, 0060823485, 0060823485A

Specifications

- Filter Life: 6 months (1500 gallons / 5678 Liters)
- Flow Rate: 2.8 liters per minute (0.75 Gallons)
- Operating Pressure: 40-120 psi
- Operating Temperature: 33-100 °F (Max 38°C)
- Filter Size: 5-1/4" (Length) x 3-1/2" (Diameter)

Instruction to replace and installation

1. Turn the used filter counterclockwise 1/4 turn and pull the filter straight down (The water shuts off automatically so you don't have to worry about flooding your refrigerator)
2. Discard the used filter and slide the new filter into the fridge with the handle in the vertical position
3. Push the filter straight up into the fridge and turn it clockwise 1/4 turn

Filtering specification:

The **Haier** filter cartridge replacement has been tested and certified by NSF International to meet or exceed NSF/ANSI Standards 42 and 53 for the reduction of:

- 99.76% of 1,4 Dichlorobenzene
- 98.74% of Carbofuran
- 97.30% of Chlorine
- 99.35% of Lead at pH 6.5
- 99.33% of Lead at pH 8.5
- 95.70% of Mercury at pH 6.5
- 86.22% of Mercury at pH 8.5
- 99.99% of Cysts
- 99.99% of Asbestos
- 95.71% of Benzene
- 76.99% of Atrazine
- 98.72% of Lindane
- 92.97% of Toxaphene
- 97.09% of Turbidity
- 99.52% of Particulates (Class I)
